

Individual Experience Program

- Doing individual internships now before the study abroad program
- Professors: have PhDs who can do trainings there

Kennedy Center

- Bundle internship with Individual Experience Program
- Providing structure to Mongolian internships
- Drawing tuition from linguistics department who then gives it to Kennedy Center (create a class with them)
- GeoBlue insurance
- **\$35 fee to be accepted**
- Tuition
- Pay for flights there
- Students given instruction (no class)
- Instructional unit to complete
- Security clearance
- Faculty not there with them entire time
- Not set courses to take like study abroad

Not problematic with Kennedy Center to have another study abroad program
